

Teflon® FEP Flange Shields

TEFLON® FEP FLANGE SHIELDS

"Flange-Safe" Flange Seals

Protection without a cover up

**Protect your personnel
against dangerous
flange leakages**

- * Leaks are immediately visible
- * Ideal for use in Chemical and Pharmaceutical Industries
- * Widely used on board shipping vessels
- * In sizes ½" (15mm) to 12" (300mm)

Features

- * Heat Shrinkable
- * Completely U.V. stable
- * Temperature Range – Suitable for continuous operation from -29°C to 150°C
- * 100 % chemically inert Teflon® FEP (Teflon is the registered Trade Mark of Du Pont de Nemours)
- * Transparent – Allows visual inspection to ensure no corrosion of bolts, nuts or flanges

Simple to install

"No tools – No special skills"

*Just wrap around the flange,
line the fasteners up with the
corresponding holes and snap
into place.*

***Available with or
without lipped edges***
